

Featuring the
all-new **ScanX® 12 SE**

SCANX® CR PACKAGES FOR PODIATRY PRACTICES

PERFECT PACKAGES
OF PRODUCTIVITY AND
PROFITABILITY

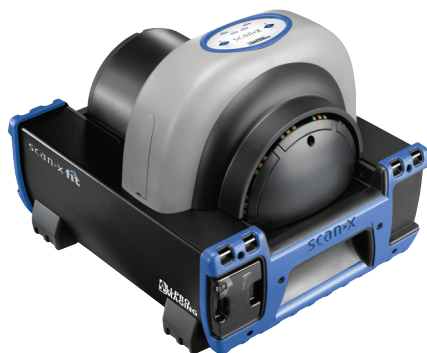

EASY, AFFORDABLE DIGITAL IMAGING

ScanX CR Systems

*Featuring the
all-new ScanX®12 SE*

ScanX®12 SE

The new ScanX®12 SE features sharper digital images that are processed in approximately 20 percent less time than the previous model. A standard 10" x 12" phosphor imaging plate is now scanned and ready for viewing in about 30 seconds, and an 8" x 10" plate can be viewed in about 25 seconds. Improved transport functionality helps to extend plate life with less plate wear. The ScanX®12 SE is also very easy to operate due to the simplified status LED panel.

ScanX Fit™

The ScanX Fit is the perfect system for those looking to upgrade their body imaging procedures to digital. Produces high resolution digital images in all sizes: 8" x 10", 10" x 12" and 14" x 17".

ScanX® Digital Technology

Robust. Cost Effective. And Versatile.

ScanX systems generate richly detailed, razor-sharp digital images utilizing Phosphor Storage Plates (PSPs) which position just like film. Simply expose, insert and view. PSPs are durable and reusable, lowering costs versus film and film-related chemicals that need to be purchased again and again.

ScanX is also highly versatile. Self-contained cassettes enable you to easily take an image wherever your patient is. Example: when the patient is in a wheelchair, or other situations where the orthoposer cannot be used.

ALLPRO ScanX CR Packages

*More Benefits.
More Efficient.*

Save time, save money. Run your business with greater efficiency, adding profit potential. Best of all, ensure precise diagnostics and optimal patient care by taking full advantage of leading-edge imaging technology. ALLPRO ScanX CR Packages make it not only possible, but simple. Here's what you get:

- Choice of the **ScanX Fit™** or the new, faster, clearer **ScanX®12 SE** computed radiography systems
- PACSmart™ or Tigerview Imaging Software
- Desktop computer or laptop
- Accessories (plates, plate protectors, cassettes)
- Onsite installation
- Toll-free tech support

PACSmart images are 100% native DICOM 3.0 format.

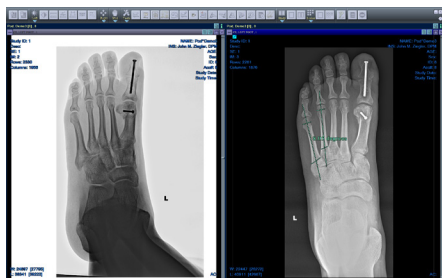

PACSmart™ Imaging Software

Running a podiatry practice is complicated. Running digital imaging software shouldn't be. PACSmart™ Imaging Software, part of the complete ALLPRO ScanX CR Package, requires a minimal learning curve – so your staff can get up to speed with our on-site training in practically no time at all. In addition to its simple workflow, powerful PACSmart software is specifically designed to make the most of ScanX technology... enabling the finest quality images for pinpoint-accurate diagnoses and treatment.

- User-friendly interface, intuitive software design
- Images are 100% native DICOM 3.0 ensuring a smooth transition to EMR and practice management software
- Diagnostic DICOM viewers enhance and manipulate images, further aiding accurate diagnosis
- Multiple operatory viewing capability; ability to query and retrieve patient studies when necessary
- Ability to accept incoming patient studies on CD from external locations and add to your archives, and also to push studies to any location in or out of network
- High resolution digital images
- Image includes all important patient information
- PACSmart™ or TigerView PACS Podiatry Software

PACSmart's DICOM Viewers enable enhancement of images, further aiding diagnosis.

ScanX CR Packages

- Desktop computer or laptop, imaging plates and accessories
- Optimum image output using new and unique image processing algorithms
- Images stored in native DICOM 3.0 format; integration to EMR and Practice Management Systems with DICOM Modality Worklist
- Additional DICOM PACS and DICOM viewers functionality, and web server options, for access to images from any computer
- Hassle-free onsite installation and training by our experts, plus ongoing support during warranty period
- Easy transition from film-based systems, minimal training needed by staff
- Get up and running immediately; use your existing X-ray system
- Affordable price

Accessories:

- Plates
- Plate Protectors
- Cassettes
- Optional Mobile Cart or Wall Mounts for the ScanX Fit
